The Members of Faculty Senate  
% Mr. David L. Vines, Chair  
The University of Texas Health Science Center at San Antonio

Dear Senators:

When President Cigarroa asked me to represent his office at Faculty Senate functions, his intent was very clear. He wants to make sure that this administration establishes a strong link with the faculty governance body to enhance communication. What he didn't realize at the time was that I found this assignment truly enjoyable! You have probably noticed that I tried not to miss any senate meetings. And when the spirit moved me, I would even bring along treats!

With this nagging feeling that I may have gotten it because of the cookies and near perfect attendance, I am humbled by the recognition all of you have accorded me with the Administration Leadership Award. Whatever I have done in the past and may do in the future, hopefully they have been and will always be, with your support, to make life better at the Health Science Center.

With Sincere Appreciation,

Theresa Chiang, Ed.D.  
Vice President for Academic Administration

Cc: President Francisco G. Cigarroa, M.D.
