

HEALTH SCIENCE CENTER HANDBOOK OF OPERATING PROCEDURES

Chapter 5	Information Management & Services	Effective:	June 2000
Section 5.5	Information Management Client Support Services	Revised:	
Policy 5.5.1	Mission	Responsibility:	Vice President and Chief Information Officer

MISSION

Mission

The function of Information Management Client Support Services (IMCSS) is to provide leadership in information systems, information management systems, and central information technology resources and services for the faculty, students, and staff. IMCSS performs the following functions:

- Operates a central computing facility in a safe and secure manner;
- Provides assistance and technical expertise to faculty, students, and staff concerning computing and information systems;
- Develops and maintains systems in support of the University's academic and administrative functions.
