However, you have the right to temporarily extend some of your coverages under certain circumstances. Contact the Human Resources Department for further information on the extension provisions.

Coverage Effective Dates

Benefit elections are effective the 1st of the month following your hire date. If you elect Medical insurance then it will be effective on your hire date.

Annual Deductible	The amount you must pay before the Plan begins paying benefits.
Annual Out-of-Pocket Maximum	The limit on the amount of medical expenses you pay in a calendar year. The out-of-pocket maximum does not include any charges over allowable charges, co-payments or charges that are ineligible expenses under the Plan.
Co-payment	A set fee that you pay for medical services, such as \$15 for an office visit to your primary care doctor, when using the University Health System network. After your co-payment, the Plan generally pays 100 percent of covered expenses. Co-payments do not count toward the accumulation of your deductibles or out-of-pocket maximums.
Co-insurance	The percentage of cost associated with the medical services paid by you. The co-insurance is 30 percent of the medical service cost after the deductible and co-payment up to the annual out-of-pocket maximum.
Medical Emergency	A sickness or injury in which failure to get immediate medical care could seriously threaten your life or health. Examples of medical emergencies include apparent heart attacks, obvious fractures and deep cuts requiring immediate medical attention.
Primary Care Physician (PCP)	The provider who acts as your primary physician and may refer you to specialists. Your PCP can be a family practitioner, general practitioner, internal medicine physician or pediatrician.

FLEXIBLE SPENDING ACCOUNTS (FSA)

University Health System provides an opportunity to participate in two types of flexible spending accounts including a Health Care FSA and a Dependent Care FSA. These accounts allow you to set aside pre-tax dollars through payroll deductions to cover eligible expenses, which helps lower your taxable income.

Flexible Spending Account	Incur Expense by	Request Reimbursement by
2020 Health Care FSA	March 15, 2021	June 14, 2021
2020 Dependent Care FSA		

How FSAs Work

Fund the Account

Indicate the amount you want to contribute for the plan year up to the IRS limit for each account. Annual contributions will be deducted from your paychecks pre-tax in equal amounts through the end of the plan year. You cannot transfer funds from one FSA to another.

Use the Funds

Once enrolled, FSA debit cards will be mailed to use for eligible expenses. Keep your card until the expiration date in case you re-enroll the following plan year. One additional card is available at no charge by contacting TASC at 800-422-4661. There is a \$10 fee for replacement debit cards.

Separation from Employment

You can continue contributing to the FSA following the guidelines of COBRA with after-tax deductions. If you choose not to continue contributions through COBRA then you may use your available funds up to and on your termination date. Claims may be submitted up to 90 days after your termination.

FSA Debit Card

Use It or Lose It

If you do not use all of the money in your accounts during the plan year or extension period and do not file for reimbursement by June 14 of the following year, you will forfeit the remaining balance. This is an IRS rule.

Manage your account with the MyTASC Mobile App. Search "TASC" in the App Store.

HEALTH CARE FSA

The Health Care Flexible Spending Account exists to help you pay for health care expenses that are medically necessary, non-cosmetic in nature, and not fully covered under your medical, dental or vision plan.

Health Care FSA Guidelines

Annual Limits	Minimum \$100 Maximum \$2,700 (IRS may revise limit)
Fund Availability	All elected funds are available when account is opened
Eligible Expenses	Expenses related to you or an IRS eligible dependent whether or not you are enrolled in the Health System's medical plan.
Pre-Tax Expenses	You cannot claim pre-tax expenses under your FSA, as these expenses have already been subject to a tax savings.

For a full list of eligible expenses, review IRS Publication 502 at [irs.gov](https://www.irs.gov).

IRS Regulations

IRS regulations state that you may not be reimbursed for day care expenses if you are off work due to illness or on a leave of absence.

FAMILY AND MEDICAL LEAVE ACT (FMLA)

Basic Leave Entitlement

FMLA requires covered employers to provide up to 12 weeks of unpaid, job-protected leave to eligible employees for the following reasons:

- For incapacity due to pregnancy, prenatal medical care or childbirth;
- To care for the employee's child after birth, or placement for adoption or foster care;
- To care for the employee's spouse, son or daughter, or parent, who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform the employee's job.

Military Family Leave Entitlements

Eligible employees with a spouse, son, daughter, or parent on active duty or call to active duty status in the National Guard or Reserves in support of a contingency operation may use their 12-week leave entitlement to address certain qualifying exigencies. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period. A covered servicemember is a current member of the Armed Forces, including a member of the National Guard or Reserves, who has a serious injury or illness incurred in the line of duty on active duty that may render the servicemember medically unfit to perform his or her duties for which the servicemember is undergoing medical treatment, recuperation, or therapy; or is in outpatient status; or is on the temporary disability retired list.

Benefits and Protections

During FMLA leave, the employer must maintain the employee's health coverage under any "group health plan" on the same terms as if the employee had continued to work. Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms.

Use of FMLA leave cannot result in the loss of any employment benefit that accrued prior to the start of an employee's leave.

Eligibility Requirements

Employees are eligible if they have worked for a covered employer for at least one year, for 1,250 hours over the previous 12 months, and if at least 50 employees are employed by the employer within 75 miles.

Definition of Serious Health Condition

A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities. Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

Use of Leave

An employee does not need to use this leave entitlement in one block. Leave can be taken intermittently or on a reduced leave schedule when medically necessary. Employees must make reasonable efforts to schedule leave for planned medical treatment so as not to unduly disrupt the employer's operations. Leave due to qualifying exigencies may also be taken on an intermittent basis.

Substitution of Paid Leave for Unpaid Leave

Employees may choose or employers may require use of accrued paid leave while taking FMLA leave. In order to use paid leave for FMLA leave, employees must comply with the employer's normal paid leave policies.

FAMILY AND MEDICAL LEAVE ACT (FMLA)

Employee Responsibilities

Employees must provide 30 days advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days notice is not possible, the employee must provide notice as soon as practicable and generally must comply with an employer's normal call-in procedures.

Employees must provide sufficient information for the employer to determine if the leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that the employee is unable to perform job functions, the family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. Employees also must inform the employer if the requested leave is for a reason for which FMLA leave was previously taken or certified. Employees also may be required to provide certification and periodic recertification supporting the need for leave.

Employer Responsibilities

Covered employers must inform employees requesting leave whether they are eligible under FMLA. If they are, the notice must specify any additional information required as well as the employees' rights and responsibilities. If they are not eligible, the employer must provide a reason for the ineligibility.

Covered employers must inform employees if leave will be designated as FMLA-protected and the amount of leave counted against the employee's leave entitlement. If the employer determines that the leave is not FMLA-protected, the employer must notify the employee.

Unlawful Acts by Employers

FMLA makes it unlawful for any employer to:

- Interfere with, restrain, or deny the exercise of any right provided under FMLA;
- Discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

Enforcement

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

FMLA section 109 (29 U.S.C. § 2619) requires FMLA covered employers to post the text of this notice. Regulations 29 C.F.R. § 825.300(a) may require additional disclosures.

Notice of Grandfathered Status Under the Patient Protection and Affordable Care Act

As permitted by the Patient Protection and Affordable Care Act (the Affordable Care Act), a grandfathered health plan can preserve certain basic health coverage that was already in effect when the law was enacted. Being a grandfathered health plan means that your plan may not include certain consumer protections of the Affordable Care Act that apply to other plans, for example, the requirement for the provision of preventative health services without any cost sharing. However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits. This group health plan believes this coverage is a "grandfathered health plan" under the Affordable Care Act.

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to Human Resources at 210-358-2275. You may also contact the U.S. Department of Health and Human Services at www.healthreform.gov.

Medicaid and the Children's Health Insurance Program (CHIP) Offer Free or Low-Cost Health Coverage to Children and Families

If you are eligible for health coverage from your employer, but are unable to afford the premiums, some States have premium assistance programs that can help pay for coverage. These States use funds from their Medicaid or CHIP programs to help people who are eligible for employer-sponsored health coverage, but need assistance in paying their health premiums.

If you or your dependents are already enrolled in Medicaid or CHIP you can contact your State Medicaid or CHIP office to find out if premium assistance is available. If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, you can contact the Texas Medicaid or CHIP office at 800-440-0493 (www.yourtexasbenefits.com) or dial 877-KIDS-NOW (www.insurekidsnow.gov) to find out how to apply. If you qualify, you can ask the State if it has a program that might help you pay the premiums for an employer-sponsored plan.

Once it is determined that you or your dependents are eligible for premium assistance under Medicaid or CHIP, University Health System will permit you and your dependents to enroll in the Family Care Plan (as long as you and your dependents are eligible, but not already enrolled in the plan). This is called a "special enrollment" opportunity, and you must request coverage within 60 days of being determined eligible for premium assistance.

Children's Health Insurance Program Reauthorization Act (CHIPRA) - Special Enrollment Rights

Employees who experience the termination of an individual's Medicaid or SCHIP coverage due to a loss of eligibility or the individual becomes eligible for a premium assistance subsidy through Medicaid or SCHIP have 60 days to enroll in group coverage through their employer.
