

UTHSCSA Graduate Medical Education Policies

Section 3	Evaluation and Assessment Processes	Effective:	January 2002
		Revised:	July 2015
Policy 3.4.	Residents' Evaluations of Faculty, Educational Experience, and Overall Program	Responsibility:	Designated Institutional Official
Residents' Evaluations of Faculty, Educational Experience, and Overall Program			
Policy	<p>Each residency program will have program-specific policies addressing the regular evaluation of faculty, educational experience, and the overall program.</p> <p>Each resident will be given the opportunity to participate in written, confidential evaluations, of their faculty, educational experiences, and overall program. It is the responsibility of the program director to survey the program's residents at such frequency as dictated by the program requirements and needs of the program for self-study, and to determine a method to maintain confidentiality of the responses. The pooled information from these evaluations will be given due consideration by the program director and teaching faculty, and will be used for self-study and improvement of the program.</p>
